Mistakenly Misgendered Take Two

A few weeks ago—September 17th to be exact—we announced the availability of a *Parent Resource Guide* that deals with the transgender issue.

Since then, I have seen and heard things that convince me more than ever that this is an issue we need to engage pro-actively and immediately. Our kids need us more than ever.

Therefore, we are excited to let you know **that this resource guide is now available as a free PDF download**. Print copies are also available. Here is the link for the pdf: <https://genderresourceguide.com/>.

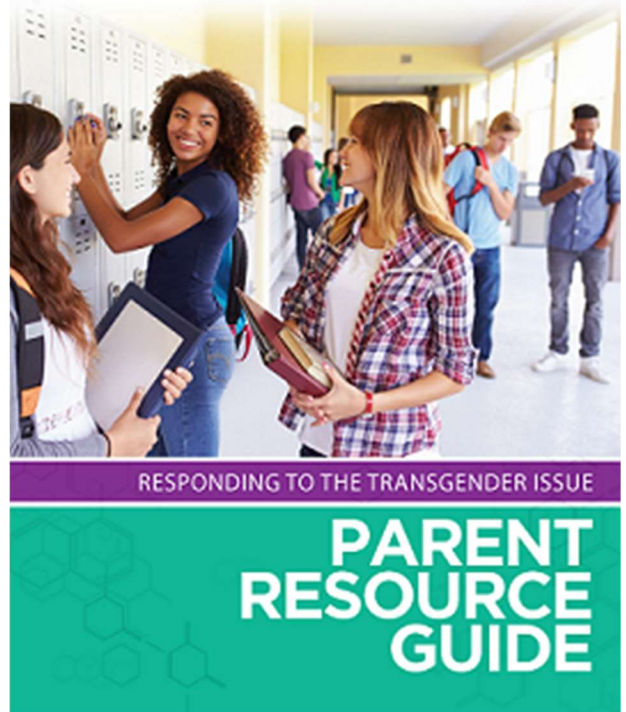

As I've mentioned, the culture is sending a false message to your young people. Actually, that is a nice way of putting it. The fact is, the culture is seeking to cram a damaging, destructive worldview down their throats. If that sounds harsh, it is because it is a harsh reality.

Spiritual leaders, parents, grandparents—we are the watchmen on the wall. If we don't guard our children and guide them in and to the truth, who will?

So I encourage you to make parents aware of this resource, especially those with children in public schools. If you have members who serve on school boards, let them know about this resource. School teachers need to have access to this guide. Everyone who is concerned about the well-being of children needs to access this guide. We hope you will utilize this valuable resource and give it the broad exposure it needs and deserves.

In Christ,

Dave Lingle
WFC Church Ambassador

PS: For a biblical analysis of the transgender issue, along with helpful practical application for ministry, I highly recommend the book, *God and the Transgender Debate*, by Andrew T. Walker (The Good Book Company, 2017).
