First Anniversary

Dear Pastor,

Today marks the first anniversary of the *Dobbs* decision leak. I (Daniel) remember sharing the news with my pastor minutes after Politico published the article.

As you may know, our organization made national headlines just days later. On Mother's Day, May 8, 2022, our office was firebombed for our pro-life beliefs and work. Sadly, following our attack, over 100 other pro-life organizations and churches across the country have been attacked.

Over the last year, pro-life policy has fluctuated tremendously from state to state. I often receive phone calls or emails from pastors asking for updates on where our abortion laws stand and what we can expect after the Spring election we just had. Our event next week is designed to give you and your church important updates and insights on these very issues.

We hope you can join us for our virtual "Lunch with a Purpose" next **Monday, May 8, at Noon via Zoom** featuring our President Julaine Appling and Family Research Council President Tony Perkins. Our friend Tony Perkins is uniquely qualified to address the pro-life issue from a national perspective, and Julaine certainly knows what's going on here at ground-zero in Wisconsin. If you want the most up-to-date information available on the attack and its aftermath and on the pro-life issue at the national level and at the state level, [be sure to register for this online opportunity](#).

Before the *Dobbs* decision, about 7,000 babies were aborted each year in Wisconsin. We are grateful that since June 25, 2022, fewer than 10 surgical/induced abortions have been reported in Wisconsin because of our pre-*Roe* law that prohibits most abortions. The overturning of *Roe v. Wade* took nearly 50 years and tireless effort on the part of many, including, for sure, pastors and churches like yours that have faithfully preached and taught biblical truth about the issue of life.
